Park And Boat Ramp On Lake Under Construction

A new county park, to be known as East Shore Park, located on a seven acre tract of land secured from the State of Florida at the request of County Commission Chairman Paul Rardin, is under construction this week immediately north of East Shore Pump on State Road 715. Clearing work has already started and necessary roads are being built into the park area, Rardin said.

The park area is located about half way between Pahokee and Belle Glade on the new highway and will afford entrance over the dike to a proposed boat ramp to be built on the lake side of the dike. Permission for building the boat ramp was secured by Chairman Rardin several months ago from the U. S. Engineers' Office in Jacksonville where he conferred with Col. Troxler, engineer in charge.

Construction of the new park will make the second park in the Glades area to be operated by the county. The Community building at Canal Point has been the only county park west of 20 Mile Bend. Another boat ramp for launching boats into the well piscatorially stocked waters of Lake Okechobee will be built on the Lake side of the dike at Lake Harbor. Plans are in the drafting stage on this installation, Rardin said.

Citrus Growers Have Their Problems

LAKE PLACID—The state plant commissioner says the spreading decline program is in "a state of flux."

Dr. William G. Cowperthwaite told a group of citrus growers the burrowing nematode program will probably undergo some changes. He was one of the featured speakers at the seventh annual Citrus Institute held by the Florida Agricultural Extension Service.

Cowperthwaite declared that if nothing had been done about the burrowing nematode some 25,000 acres would now be infested. He said the push and treat program has kept the organism from spreading faster than it could be coped with.

Reporting on the Mediterranean fruit fly, he said there are continual threats from without the state with 94 fruit flies captured at Florida ports of entry in a year's time.

The State Plant Board is experimenting with a new chemical treatment for the burrowing nematode that holds a great deal of promise, Cowperthwaite reported. The push and treat program calls for the trees to be bulldozed and the ground treated.

Pick your savings target and shoot straight for it!

A home . . . financial security . . . a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you before you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 19 years and 8 months. That means a return of up to 80% more than you originally paid.

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.50 a week. In 5 years you'll have Savings Bonds worth \$3053 in cash; in 10 years, \$4448.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

For the big things in your life, be ready with U. S. Savings Bonds

Inspiring experience of Abraham, Joseph, Moses, and Christ Jesus will be related in the Scriptural readings. Speaking of Abraham, a citation to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy states (579:12): "This patriarch illustrated the purpose of Love to create trust in good, and showed the life-preserving power, of spiritual understanding." The Golden Text is from Ephesians (2:8): "By grace are ye saved through faith; and that not of yourselves; it is the gift of God."

Board Of Review For Boy Scouts

A Board of Review was held on Tuesday night and another will be held this Tuesday night June 7th. It was most gratifying to see so many boys out that a second Board of Review had to be held. The question tho' is where were all the boys who have come up from Cub Scouts? We want to see them out to get their Tenderfoot and Second Class ranks so they can begin on their merit badges and be on their way toward the Eagle goal.

The Troop Librarian has the library open on Board of Review nights from 6:30 p. m. to 7:00 p. m. You can get your merit badge applications as well as scoreboards for advancement in rank from him at that time. A large percentage of Scouts reach First Class or even Star and after that just drag along for months or even drop out of scouting all together. Let's not let this be said of our boys or our troop. Let's make our troop bigger and better through advancement.

The regular scout meeting is held each Friday night at 7:00 p. m. Visitors are always welcome. —Reported by Wayne Ludlam

Broward County Is First In Increase

Final preliminary population figures for all counties of the Sixth Congressional District are printed below.

These figures are believed to be substantially correct but are subject to revision after the returns for non-residents are credited to their proper locality and other routine checks have been made. Although a significant revision is unlikely, minor revision may possibly occur after a careful examination of the returns. The official announcement of population will be made at a later date by the Director of the Bureau of the Census.

*Uncle Sam made the bonds you own
an even better bargain!*

Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 . . . a \$37.50 Bond will be worth \$67.34 . . . and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25¢ a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 . . . in 9 years and 8 months, you'll have \$2,850.70 . . . and in 19 years and 8 months, \$6,872.45! This Plan is one sure way to save because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

If you want to be paid
your interest as current income—
invest in 3% Series H

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased at any bank, annual limit \$10,000.

Now even better! Invest more in Savings Bonds!
